# **1 – THE OFFICE**

# 1- THE OFFICE

*Nader A. Goubran* DESIGN OFFICE, known in short as

is an experienced, medium size consultant, presently operating in EGYPT and abroad. It has gained - over years of experience - an innovative leader position in the field, based on a large number of projects.

was established in January 1985, as a private office by consultant architect *Nader A. Goubran- Ph.D.* and the name of the office is retained since.

is now based in its NEW **NG** BUILDING in New Cairo, plot 125 Town Center, Cairo – Egypt. Its experienced professional staff is ordered in an organization chart, typical of any large consulting firm.

has developed, through its projects, affiliations with several reputable consulting firms in Egypt and well know architects in EUROPE. These affiliations, in addition to providing valuable working relationships, have provided the office with a channel to witness and acquire the latest equipment and the techniques practiced and updated in the world.

clients vary from government agencies to private sectors and individuals. Projects of international and multi- national organizations were also undertaken by the office.

The scope of work or objective of the office, have been to provide comprehensive, quality work, ensured by a professional attitude within acceptable cost margins. Since the office's activities have been employed to greater extent in Egypt, the office has adopted a doctrine of participation in project geared to provide solutions to acute and sensitive developmental problems. Yet the office has emphasized an interest in private investments and initiatives, to promote a highly capable sector of the economy.

Offers service in multi-disciplinary tasks in the fields of planning, design, engineering, construction management and construction supervision. The office's integrated studies span the range of construction related project.

Was certified as a consulting firm by Egyptian Syndicate of Engineers by the end of 2007.

## **2 – THE ORGANIZATION**

## **2- THE ORGANIZATION**

The President and Managing director of

*Cons. Arch. Nader Alphonse Goubran- PhD*, is the founder of the office. The heads of the four sectors of the office who have had a long standing contribution in the office, together with the president, act as chief executive officer.

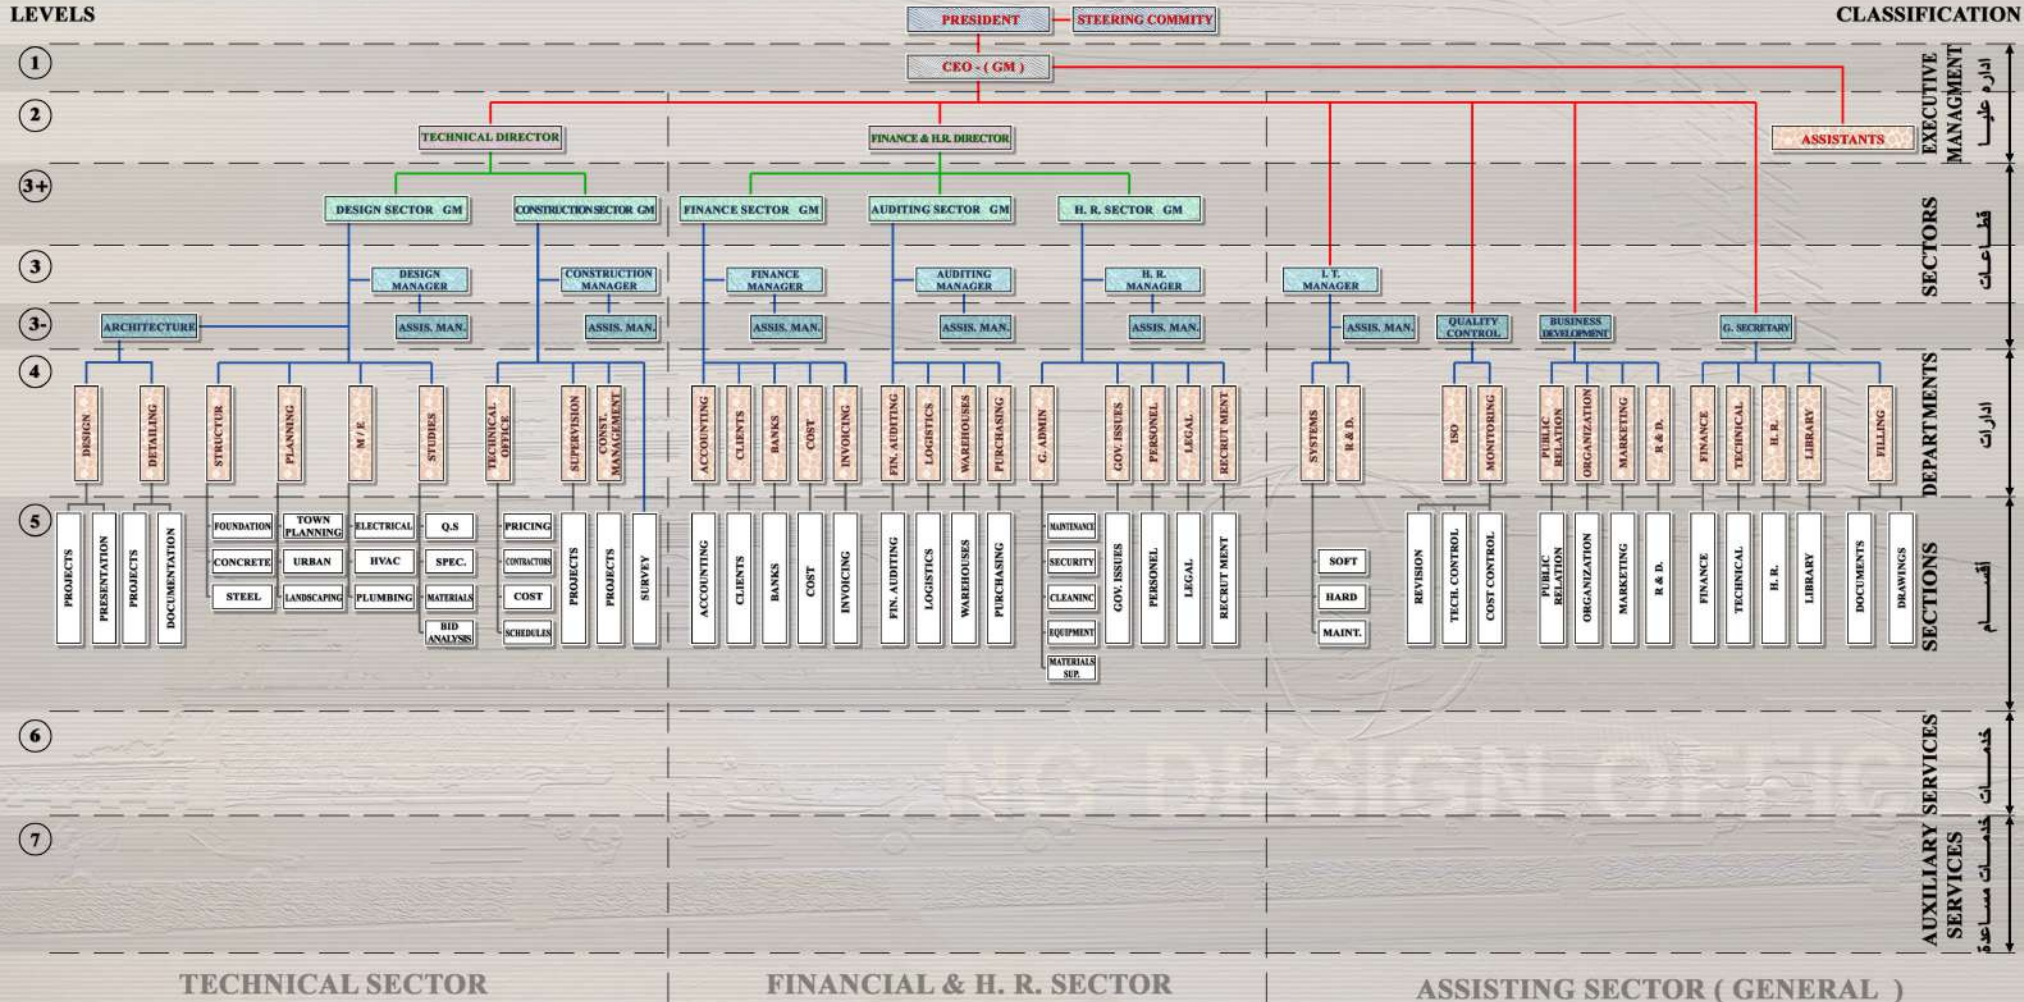

They are the cornerstones of the office decision making process. The heads of department are charged with compiling, supervising and executing all aspects related to projects under their auspices.

The managing director is responsible for the administrative, non technical duties within the office. His jurisdiction also includes the General Administration, Public relations and Accounting departments. He is also heading the architectural department with its three sections.

This organizational structure allowed an integration of all the aspects of the construction process within an independence, a functionality and a team spirit .

## **3 – SCOPE OF ACTIVITIES**

### **3 - SCOPE OF ACTIVITIES**

**NG design office**  
ARCHITECTS - PLANNERS was founded in 1985 .

The office's main scope of work at that time was concentrated on the design of architectural and town & urban planning projects.

Year 1986, was the start of the construction supervision of the project.

In 1990 the construction management department successfully started, rapidly grew up & performed successfully; Mega industrial projects were the fruit of this success.

Since 1998 the office is covering the full range of design services with all its sections.

The office has reached today a high level of performance in all its field and ...  
The average yearly construction cost of the office project is 120 million L.E.

## 1- PLANNING

lanning approach is concerned with the thorough investigation of the existing environment, objectives and condition and the preparation of alternative development plans for study and evaluation. Detailed design, economic and physical development aspects are analyzed and criteria, constraints, and opportunities are identified. While preparing proposal the office pays particular attention to local techniques and processes.

### **Main areas of expertise:**

- ❑ City and regional planning.
- ❑ Urban development planning and design.
- ❑ Housing and related facilities.
- ❑ Finance and economics.
- ❑ Tourism and recreational planning.
- ❑ Commercial and industrial planning.

## 2- ARCHITECTURE

ffers services related to the architectural design of new development projects as well as the refurbishment, renovation and rehabilitation of existing buildings. The office combines a keen business sense with an awareness of the impact of a new development project on the urban texture and environment.

### **Main areas of expertise:**

- ❑ Housing & High rise towers.
- ❑ Commercial and industrial development.
- ❑ Hotels and recreational development.
- ❑ Office buildings & Multi-purpose complexes.
- ❑ Public utility buildings (hospitals, sport facilities, etc.).
- ❑ Interior design.

### 3- ENGINEERING

 engineering services with the

development of an integrated approach to the planning and implementation of infrastructures, services and structures. Abilities include all aspects of mechanical, electrical, hydraulic, and sanitary works.

#### **Main areas of expertise:**

- ❑ Structural systems, analysis and design.
- ❑ Water supply and distribution.
- ❑ Sanitation, sewerage, wastewater treatment and disposal.
- ❑ Stations, substations and plants.
- ❑ Infrastructure management, operations and maintenance.
- ❑ Cost planning, estimating and budgeting.
- ❑ Investment programming and implementation.

### 4- CONSTRUCTION MANAGEMENT

 consultancy capabilities embrace many

engineering disciplines together with operational and project management. The teams formed are capable of assimilating all aspects of a project from inception to delivery.

#### **Main areas of expertise:**

- ❑ Contractors pre-qualifications.
- ❑ Cost management and control.
- ❑ Procurement and contract documentation.
- ❑ Project control systems and planning.
- ❑ Project approach and procedures.
- ❑ Quality surveying and Quality control.
- ❑ Initial and Final delivery.
